👤 Summary

Motivated and versatile **Full-Stack Developer** with hands-on experience in Django, React, and Vue.js, specializing in building secure, scalable, and user-friendly web applications. Strong background in **software engineering**, **ethical hacking**, and **cybersecurity**, with expertise in secure coding, web security, penetration testing, and modern full-stack development. Trained through [eMobilis](#), [Power Learn Project \(PLP\)](#), [Cisco Networking Academy](#), and [Cyber Shujaa](#), and currently pursuing a Diploma in Computer Science at Pwani University. Seeking a **Full-Stack Software Developer** role to build innovative, secure, and impactful digital solutions.

🏢 Experience

Full-Stack – Campus-Care 2025-11-15 - 2026-05-13

Developed a full-stack student support and campus management platform to improve access to campus services, featuring responsive design, secure authentication, backend API integration, and scalable system architecture.

Hostel-Management-System – Remote 2025-12-17 - 2026-05-10

Developed a full-stack hostel management system using Django to automate hostel registration, room allocation, fee tracking, and student records, with secure authentication and an admin dashboard for efficient management.

🎓 Education

Diploma In Computer Science, Pwani University (N/A)

Ethical-Hacking, Cyber Shujaa (55%) 2026-04-29

Software Development, eMobilis 2025-08-10

Software Engineering(Full-Stack), Power Learn Project Academy (85%) 2025-08-25

KCSE, Barani Secondary School 2025-12-02

Ethical-Hacking, Info Sec 2024-01-03

🔗 Projects

Hostel Management System -

Developed a full-stack hostel management system using Django to automate hostel registration, room allocation, fee tracking, and student records, with secure authentication and an admin dashboard for efficient management.

Campu-Care -

- Swahili
(Intermediate)

Developed a full-stack student support and campus management platform to improve access to campus services, featuring responsive design, secure authentication, backend API integration, and scalable system architecture.

Transport-Book -

Developed a full-stack car booking and transport reservation platform that allows users to book vehicles, manage reservations, and track schedules. Implemented secure user authentication, real-time booking workflows, route management, and a responsive user-friendly interface.

Personal Portfolio Website -

Designed and developed a modern, responsive portfolio website to showcase projects, technical skills, and professional experience, with SEO optimization and a clean user-friendly interface using HTML, CSS, and JavaScript.

Certifications

Software Development — [eMobilis Technology Training Institute](#)

Software Engineering — [Power Learn Project \(PLP\)](#)

Ethical Hacking — [Cisco Networking Academy](#)

Advanced Cybersecurity & Ethical Hacking — [Cyber Shujaa](#)

Diploma in Computer Science (Ongoing) — Pwani University

Hobbies

Coding — Building innovative solutions and exploring new technologies.

Reading — Expanding knowledge in technology, cybersecurity, and personal development.

Swimming — Maintaining discipline, focus, and a healthy work-life balance.
